

Fed Ed: The New Federal Curriculum and How It's Enforced

Virtually every state in the Union scrambled to change its education system. Few people realized that these changes were largely being driven by the fine print in federal laws first passed in 1994. It's the new federal curriculum, and

it's contrary to everything America stands for.

You need to know.

- How the federal government has taken control of the curriculum in our schools.
- How states are being forced to adopt the new curriculum.
- Why all textbooks and national tests are being rewritten to measure performance on the new federal curriculum.
- How much of a disadvantage nonpublic students will face on the new national tests.

This groundbreaking book has sold over 10,000 copies, and has provided the first detailed analysis of the new federal curriculum.

“Textbook Review of *We the People: The Citizen and the Constitution*,”

The “Textbook Review” is a companion to Allen Quist’s 2002 landmark book, *FedEd: The New Federal Curriculum and How It’s Enforced*. In this booklet, Professor Quist offers a penetrating review of *We the People: The Citizen and the Constitution*, a pivotal textbook in the new Federal Curriculum.

Quist’s review is followed by a question-and-answer session on the key issues of the new Federal Curriculum. This booklet is a must-read for anyone concerned about the trends in education in the United States.
